### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

Claims 45-60 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that in response to said first node becoming unavailable, automatically configuring a second node of the cluster to respond to requests addressed to said IP address; after said first node becomes unavailable, the service requestor using said IP address to address a message to said cluster related to said service; and in response to said message, said second node of the cluster sending a response that indicates an error condition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
